Dera Ghazi Khan

Skills

- C++
- Data Structures (DSA)
- Python & Java
- SQL & Databases
- HTML / CSS

Education

Superior College

May 2022 – May 2024

Intermediate (Pre-Engineering)

- Marks: 1007/1200
- Dera Ghazi Khan

UET Taxila

BS SE (Aug 2024 – 2028)

- Current Semester: 3rd
- Focus: Backend Logic & Efficient Coding

Summary

Software Engineering student at UET Taxila ('28) with a strong focus on backend logic and efficient coding. Deeply invested in mastering Data Structures and Algorithms (DSA) to write optimized code in C++, Java, and Python. Passionate about community building through SoftDesk and GDSC.

Experiences

Leadership & Community Involvement

YPDC, GDSC & SoftDesk | UET Taxila

- Operations: Managed event logistics and team coordination for YPDC.
- Community: Engaged in technical workshops and networking at GDSC.
- Documentation: Handled official reporting and record-keeping for SoftDesk.

Project

Inventory Track Pro (DSA Project)

- Developed a complete Inventory Management System using C++.
- Implemented sorting algorithms (Ascending/Descending) and efficient data structures.
- Focus: Backend logic optimization and user-friendly console interface.
